Charlotte C. Baer
Memorial Award

The Charlotte C. Baer Memorial Award is presented annually to a volunteer clinical professor of the School of Medicine in recognition of distinguished service. This award is named in honor of Dr. Charlotte C. Baer (1908-1973), who was a practicing internist in San Francisco and a volunteer clinical professor for almost 30 years.

Dr. Baer was an outstanding clinician with exceptional humanistic qualities who served as a role model and teacher to hundreds of our students and residents. See biography on Dr. Charlotte C. Baer.

Maxine Papadakis Awards for Faculty Professionalism and Respect

The Maxine Papadakis Awards for Faculty Professionalism and Respect advance UCSF values in medical education. These awards recognize faculty who are exemplars in treating students and all others in the clinical environment with professionalism, courtesy and respect.

Dr. Papadakis is Professor Emeritus who retired in 2016 as Associate Dean for Students at UCSF School of Medicine. It was Dr. Papadakis' work that led to the "respect" questions on the student evaluations of faculty.

We celebrate the faculty teachers in the core clinical rotations who are honored with these awards, as they significantly impact the clinical learning climate for our students.

Henry J. Kaiser Awards for Excellence in Teaching

The Henry J. Kaiser Awards for Excellence in Teaching were established in 1969 with funds provided by the Henry J. Kaiser Family Foundation. They bestow significant academic distinction, as well as a small monetary award for the recipients. Faculty members who teach medical students or residents are eligible for nomination, and only medical students and residents can make nominations. This year we celebrate the recipients of the Kaiser awards in five categories, including the award recipient from Fresno Medical Education Program.

Teach for UCSF Certificate Program – Acknowledgment

Teach for UCSF is a program of the Center for Faculty Educators that creates defined educational paths based on specific sets of free workshops, ranging from 20 to 35 hours of instruction per certificate, plus individual assessments during each workshop. Individuals develop focused teaching skills in any of seven tracks.
The program is popular with faculty, residents, fellows, and volunteer professors at UCSF and at affiliated institutions. There are over 1100 individuals enrolled, and at least half are enrolled in more than one certificate. For more information, see: http://tiny.ucsf.edu/T4UCSF
